ITINERARIES

USHUAIA, CAPE HORN & FALKLANDS (MALVINAS)

8 DAYS / 7 NIGHTS

Itinerary

- A chance to visit Cape Horn
- The Falkland Islands (Islas Malvinas)
- Combines perfectly with a visit to Patagonia

Day 1 / Ushuaia, Embarkation

Your journey begins at the pier in Ushuaia, Argentina, with boarding between 19:00 hr. and 20:00 hr. Board your ship and sail along the Beagle Channel towards Puerto Williams, Chile, the southernmost town in the world, where the ship will clear formalities to approach Cape Horn.

Day 2 / Cape Horn

After an overnight crossing of Nassau Bay, wake up in full view of the legendary Cape Horn! Weather permitting, board a Zodiac and be one of the few privileged adventurers to step foot on this famous and rarely visited island. Sail and explore the area in depth before setting course north towards the Falkland Islands.

Day 3 / At Sea

As we sail through the South Atlantic en route to the Falkland Islands (Islas Malvinas), you can attend an engaging program of lectures and presentations. In the company of expert guides, watch for bird and marine life from the lounge or the outside decks. You may spot magnificent seabirds, such as albatrosses and petrels, as well as different species of whales.

Day 4 / West Falklands (south)

Ruggedly beautiful and remote, places such as New Island, Weddell Island, or West Point are located at the extreme west of the Falklands' archipelago. See dramatic cliffs contrast with sheltered sandy bays and natural harbors. These areas host a large concentration of wildlife with lots of diversity. Some of the best wildlife experiences are just a short distance from the settlements.

Day 5 / West Falklands (north), Carcass & Saunders

Named after HMS Carcass, a vessel which visited in the late 18th century, the terrain here is varied with rocky ridges, steep cliffs, open plains, white sand beaches, and coves. Saunders is the second-largest offshore island and has very varied terrain, from rocky hills to sweeping shorelines. It is an important natural habitat for birds and offers exceptional wildlife viewing opportunities. All five breeding species of penguin can be spotted here along with black-browed albatross and many other birds.

Day 6 / The Falkland Sound

We cruise down the Falkland Sound, sightseeing its rugged and untouched landscapes and immerse ourselves in the past and recent history of the islands. You visit settlements and meet the locals, getting to know the culture of farming families. As we stop at sites that were active battlefields during the 1982 conflict, our historians introduce us to regional geopolitics.

Day 7 / Port Stanley

Join our expedition team on guided walking tours in town or to Gipsy Cove. Or take the option to explore on your own and absorb the atmosphere, grabbing lunch at the local pub, visiting the maritime museum, the church, hunting for souvenirs, or walking down Ross Road, paying tribute at the war memorials at the waterfront.

Day 8 / Disembarkation

Transfer to the airport at Mt. Pleasant will be provided from the ship according to the scheduled flight.

OPERATED ON

Magellan Explorer

* Note: Small-group day tours and half-day tours can be purchased on board the ship to visit Volunteer Point (by 4x4 vehicle or helicopter), battlefield tours (by 4x4 vehicle), and others. Options will be presented on board.

THE ANTARCTICA21 EXPEDITION EXPERIENCE

Mariano Curiel
Director of Expedition Operations

Mariano Curiel, Director of Expedition Operations, talks about the expedition experience in Antarctica and beyond.

What makes a trip an “expedition”?

The word expedition refers to a journey undertaken by a group of people with a particular purpose, such as exploration or research. With a lot of preparation and just as much flexibility, we lead expedition travelers to Antarctica and the sub-Antarctic islands to deepen their understanding of these remote and otherworldly places.

What surprises our travelers the most?

In my experience, the most significant impact comes from being exposed to such majestic expressions of nature. In the remote and extreme Antarctic environment, travelers see and feel things that go beyond what they know and are used to in their daily lives. It's the same planet but feels different. For many, it is a life-changing experience.

How do you put together the expedition team?

Members of our expedition team must be able to perform at the highest level in extreme conditions for extended periods of time. Our mission is to connect our guests to the places we explore. To become that link, the team not only needs hard technical skills, and experience, but empathy, which allows them to feel and understand the emotions of our guests. We focus on building diverse teams in terms of gender, nationality, skills, backgrounds, etc. Finally, we look for people who feel deep respect for the Antarctic environment. A team needs to be confident in their plans but ultimately humble to the forces of nature. It's a unique profile we look for.

We only run small-scale trips. How does that shape the experience?

It gives us several advantages. To begin with, the connection to the places we visit is qualitatively different: less noise, less distraction, a more intimate experience. Then, there is our flexibility: in extreme environments, the only guarantee is that there are no guarantees and plans will have to change. Our small scale affords us a lot of flexibility, which is a huge operational advantage. It results in better daily routines. But probably the most important point is that we can establish a personal connection with our guests. We speak with them, we listen, share, and find out what they are experiencing during their trip. That gives us a chance to adapt our plans so that our guests are not simply “passengers” but become active participants in their trip.

SEA KAYAKING

© M. Edward Harris

Experience Antarctica and sub-Antarctic destinations from the unique vantage point of a sea kayak. The majestic landscape, the icebergs, and the wildlife look different as you paddle quietly through the icy waters.

The Program

The sea kayaking program is an optional small-group experience limited to a maximum of 10 participants. The group enjoys multiple excursions throughout the voyage under the guidance and leadership of an experienced Kayak Master.

Every day in Antarctica, the Falklands (Malvinas), and South Georgia, your Kayak Master will work with the Expedition Team to look for the best kayaking opportunities based on suitable and safe weather conditions. A dedicated safety Zodiac will support the group. Each kayaking excursion will be approximately one and a half hours. The Kayak Master will strive to offer some time at the landing site so you can also explore on land.

To take part in the kayaking program, you must have previous experience and know how to swim. The minimum age for participation is 16 years, and space is limited.

For complete details, please review the “Sea Kayaking” document, which is available upon request.

Ocean Nova: \$ 895 USD per person

Magellan Explorer: \$ 995 USD per person

[Book at the time of reservation](#)

Notes: Sea Kayaking is offered as a full program of excursions delivered to the same group of participants. It is not possible to join individual, one-off kayaking excursions or to rotate participation among family members or groups of friends traveling together.

Payment of the sea kayaking participation fee is due at the time of reservation. In the case of cancellation 120 days or more prior to departure, Antarctica21 will refund 50% of the participation fee. In the case of cancellation 119 days or less prior to departure, there will be no refund.

HIKING & SNOWSHOEING IN ANTARCTICA

See more of the Antarctic landscape with our Hiking & Snowshoeing program. Excursion locations are selected for their scenic appeal and will provide unique vantage points for your photographs.

The Program

The Hiking & Snowshoeing program is an optional small-group experience offered on board the ship as a one-off excursion. A Hiking and Snowshoeing Guide leads the group.

Every day you are in Antarctica, the Hiking and Snowshoeing Guide will work with the Expedition Leader to look for the best hiking or snowshoeing opportunities within the trip's schedule, based on suitable and safe weather conditions. Each

excursion will be approximately one and a half hours in duration. Depending on the conditions of the terrain, some excursions may require the use of snowshoes and/or trekking poles, that Antarctica21 provides. Participants can select the excursions they want to join, paying a per-excursion fee. The activity can be booked and paid for on board the ship.

To take part in the Hiking & Snowshoeing program, you do not need previous experience. However, your level of physical fitness should be good. The minimum age for participation is 12 years.

Please review the “Hiking and Snowshoeing in Antarctica” document for full details, which is available upon request.

\$ 85 USD Per Person, Per Excursion

LIFE ON BOARD

Sandra Walser, Lead Cruise Manager, talks about the experience aboard our expedition ships.

What is life like on an Antarctica21 ship?

The ship is our base, a welcoming place to return to after our excursions. Our goal is to make it feel like your home away from home. We deliver a boutique hospitality experience that is personal, comfortable, and flexible. You can enjoy the privacy of your cabin, or socialize in the lounge; find a space for quiet contemplation in the library, or you can join fellow travelers on deck. Our team interacts with guests throughout the journey, sharing their knowledge and keeping everyone briefed on the trip's progress.

What about the dining experience on board?

Onboard dining gives you a chance to get to know your travel companions and make new friends. With different sized tables and no pre-assigned seating, you can choose to sit privately or join a group; the choice is yours.

Our chefs care about flavor and detail. In the remoteness of Antarctica, they may surprise you with a fresh sprig of rosemary as decoration. All meals offer a variety of choices that appeal to many tastes, including several main courses and side dishes, salads, fruits, and pastries. Our waitstaff serves a full selection of drinks. Beers and premium Chilean wines are included with lunch and dinner. Depending on cruising conditions, a barbecue on deck may be offered.

What are Magellan Explorer and Ocean Nova like?

At Antarctica21, we pride ourselves on offering expert and welcoming service on board all our ships. You will enjoy an exciting expedition program and a comfortable hospitality experience:

briefings, presentations, social time in the lounge, access to the bridge, and daily cabin service are offered during your trip. In all cabins, we provide a reusable water bottle, refreshing bath products, chocolates at turn down, and more.

Magellan Explorer is a new vessel, with a modern design. Nearly all cabins have a private balcony: you can wrap yourself in a blanket and sip a warm beverage as you enjoy views of Antarctica in complete privacy. Ocean Nova offers an informal base for adventurous travelers. The ship's strong hull and excellent maneuverability provide an exceptional expedition experience at a more affordable price.

No matter which ship you choose for your Antarctica expedition, our goal is to ensure that you enjoy a friendly atmosphere, comfortable cabins, and common areas with knowledgeable and helpful staff.

EDUCATION PROGRAM

Antarctica21's education program is delivered under the banner of A21CONNECT, an overarching concept where education, experience, and science converge.

With A21CONNECT, opportunities for understanding and gaining knowledge are woven throughout your journey, with multiple touchpoints.

Our expedition team offers engaging presentations on board the ship and interpretation in the field. Additionally, there are several one-on-one moments throughout your journey, where conversations with team members build upon the experiences of the day, leading to contextualized

understanding. Thanks to the small-scale of our operation, those moments frequently happen: in the lounge, in the dining room, on deck, during a Zodiac cruise, and on countless other opportunities. Finally, we offer interactive workshops where you can participate and learn: open discussions, photography workshops, citizen science programs that collect data in support of scientists around the world, and more.

Through A21CONNECT, Antarctica, a distant and mysterious region, is revealed in action.

Did you know? If you added up our expedition team members' total time spent in the polar regions, it would amount to over a century!

ANTARCTICA21 FOUNDATION

The Antarctica21 Foundation has been established in 2021 as a vehicle for participation in a variety of programs focused on Antarctica. With the support of Antarctica21, the foundation undertakes activities in support of science, art, conservation, and education, thereby contributing to the creation of Antarctic knowledge and to the transfer of that knowledge to wide segments of society.

PACKING FOR YOUR TRIP

Suggested Clothing

The average temperature in the Falkland Islands (Islas Malvinas) during the time of our visit is in the 5 - 10°C (40 - 50 °F) range. The average temperature in South Georgia and the Antarctic Peninsula area during the time of our visit is about 0°C (32°F), although sometimes it may feel a little lower because of the wind chill factor. For this reason, it is best to wear several layers of light, warm clothing. The suggested clothing for Antarctica and the sub-Antarctic regions is very similar to that recommended for skiing: thermal underwear, a couple of warm and wicking mid-layers, a windproof and waterproof jacket, plus pants as the outer layer. You will also need a hat, a scarf, waterproof and insulated gloves, and sunglasses with high UV protection. The pre-departure material provides further details. We also suggest packing comfortable clothes to wear on board, as well as rubber-soled shoes for walking around on the outside decks.

EXPEDITION JACKET

Our Signature Waterproof Expedition Jacket has been hand-selected for you as the perfect, technical outer shell for use on our expeditions.

The Antarctica21-branded BR2 Offshore Waterproof Jackets by MUSTO is breathable and features double cuffs, an adjustable hem, a double storm flap with a drainage channel over the zip, a high collar, and a roll away fluorescent hood. The sleeves are articulated to allow complete freedom of movement. The fleece-lined collar, hood, and pockets add warmth, while the prismatic reflectors provide extra visibility. The jacket is an outer shell to be worn over a few layers of warm clothing.

Only available in the Antarctica21 Gear Shop at www.antarctica21.com

Price: \$ 349 USD

Note: Jacket model and price subject to change. Please review the model and price at the time of purchase.

USEFUL TIPS

Waterproof Boots

As most landings in Antarctica and the sub-Antarctic regions are “wet landings”, the best footwear is knee-high waterproof boots. You will not need to carry them with you since Antarctica21 will provide you with a pair of thermal rubber boots.

Face Protection

Good quality UV filtering sunglasses are essential. Glacier glasses have leather flaps at the sides to stop the light from passing through. Due to the high reflectance of UV radiation, you will also need good sunblock lotion for your face (protection factor 30 and above) and lip balm.

Photography

To see the wildlife, you should have a good pair of lightweight binoculars (the suggested magnification is 7x or 8x). If you are passionate about photography, do not forget a good zoom lens to shoot wildlife while avoiding close approaches. Also, take a good supply of memory cards and spare batteries with you since cold temperatures can reduce their life span. The recreational use of drones is not allowed during the expedition.

Visa & Passport Requirements

All travelers should check the entry requirements of the countries visited during their trip, based on their nationality. For trips that visit Argentina, Chile and the UK, the requirements of all countries should be considered. For trips that visit South Georgia, a passport is required for entry, and it is the only valid form of identification for travel.

Dietary Information

Requests regarding diets must be made on the Participation Form you receive after your booking confirmation. This information will be passed along to our staff so they can accommodate your needs while on your voyage. Note: due to the nature of our expeditions and the kitchens onboard the ships, Kosher and vegan meals cannot be accommodated.

The Nature of Expedition Travel

Our expeditions are suitable for adventurous travelers who enjoy full mobility and reasonably good health. Expedition travel to Antarctica and the sub-Antarctic regions requires flexibility and adaptation to ever-changing circumstances.

Your Travel Companions

Antarctica21 offers its expeditions worldwide. Each year we welcome travelers from over 40 different countries. They may travel alone, as a family, or as part of a group. While some of your traveling companions may speak different languages and have different customs, they will share your passion for adventure and interest in the natural world.

Participation Form

Participants are required to fill out and submit an online Participation Form and return it to Antarctica21 at least 120 days prior to departure. Based on the medical information provided in the form, Antarctica21's Medical Director may request a medical certificate. All participants 75 years of age and older must submit a medical certificate.

Medical Insurance

Antarctica21 requires participants to be adequately covered by a travel insurance policy that covers aero-medical evacuation from any of your destinations as a result of a medical emergency during the trips, including emergencies related to pre-existing health conditions.

Cancellation Insurance

Antarctica21 strongly urges participants to be adequately covered by trip cancellation and interruption insurance.

Itinerary

Every effort will be made to adhere to the planned program. However, with this type of adventurous travel, changes to the itinerary may occur due to severe and changeable weather. We need to emphasize the fact that weather conditions are unpredictable, and safety is always the paramount concern on any Antarctic voyage. For this reason, Antarctica21 reserves the right to change the itinerary described due to weather conditions or other factors beyond Antarctica21's control without consulting the participants.

Baggage and Baggage Allowance

We recommend that clients avoid expensive designer luggage that is easily damaged. We also strongly recommend that clients take out a luggage insurance policy that covers the cost of repairs or replacement in case their luggage is damaged. Due to the nature of the expedition, and as stated in our Terms and Conditions of Sale, Antarctica21 cannot be responsible for any damage to a customer's luggage.

Note that at certain points during the expedition you will be required to handle your own luggage.

Expedition Language

The official language of our expeditions is English. The voyage will take travelers to remote destinations where interaction with our polar guides is essential. In the interest of safety and for the enjoyment of the experience, we strongly recommend that travelers who do not understand English be accompanied by someone who does, such as a friend, a family member, or a Tour Leader.
