Now, you can join us in navigating these remote and sparsely inhabited areas on a voyage of discovery that very few have ever taken.

JOURNEY ACROSS THE NORTHEAST PASSAGE

26 DAYS | TROMSØ TO ANCHORAGE | JUL 29, 2023 | SEABOURN VENTURE

Overnight stay.

DAY 0 | TROMSØ

Arrive in the sophisticated northern city of **Tromsø**, which is known for the many famous explorations that began here. Then, begin your own journey as you board Seabourn Venture.

DAY 1 | STORSTAPPEN ISLAND

At **Storstappen Island**, board a Zodiac® or kayak to witness thousands of breeding seabirds, including puffins, gannets and kittiwakes.

DAY 2 | MURMANSK, RUSSIA

Learn about **Murmansk's** fascinating maritime history with a visit to the nuclear-powered icebreaker *Lenin* and the Savior on the Waters Orthodox Cathedral. Then, visit the Palace of Culture, which hosts most of the city's musical and cultural events, and try a blini, or buckwheat pancake with sour cream and raspberry jam.

DAYS 3-4 | BARENTS SEA

During two restful days at sea, visit the Bow Lounge to enhance your understanding of the ship's navigation systems and view the digital charts.

DAYS 5-6 | NOVAYA ZEMLYA EXPERIENCE

You'll have two days to tour **Novaya Zemlya**, meaning "New Land." Heavily used by the Soviet military during the Cold War, this island group has a surprising amount of beauty and nature with its tiny tundra plants and abundant marine wildlife. Head ashore for exhilarating walks and hikes or explore by Zodiac or kayak.

DAYS 7-10 | FRANZ JOSEF LAND EXPERIENCE

A nature reserve of 192 islands, **Franz Josef Land** is now part of the Russian Arctic National Park, granting protection to polar bears, Atlantic walrus, bowhead whales and ivory gulls. Your days here will be flexible, with activities like traversing tundra landscapes, sighting polar bears, admiring the flora and fauna and basking in the ever-present midnight sun. Discover the sea by Zodiac or kayak, and then venture ashore with the ship's naturalists.

DAYS 11-18 | EXPLORING THE NORTHEAST PASSAGE

Sea days intermingle with land days as you join the Expedition Team in search of marine wildlife and nesting seabirds. With stops at **Bolshevik Island** and the **New Siberian Islands**, every day is an adventure. Revel in the delicate flora surviving in huge frozen landscapes and explore on foot, by Zodiac, and by kayak to discover the transformative nature of the area.

DAYS 19-21 | WRANGEL ISLAND EXPERIENCE

After a day at sea, the evening brings you to **Wrangel Island**, a Russian Federal Nature Reserve and UNESCO World Heritage Site. The island is often referred

to as a polar bear "nursery" due to the large numbers of cubs born here. Other Arctic species are abundant as well, such as musk ox, Arctic fox, snow geese and snowy owls.

DAY 22 | CHUKCHI SEA

On deck, look for migratory sea birds and marine mammals, or visit the Discovery Center to learn about the unique species that inhabit the region.

DAY 23 | WHALE BONE ALLEY, YTTYGRAN ISLAND

Join the Expedition Team to explore **Whale Bone Alley**, one of the most impressive and mysterious sights in Chukotka. Discovered by archaeologists in 1977, this remnant of ancient Siberian Yupik culture consists of several rows of whale skulls and jaw bones as well as about 100 meat pits surrounding a central sanctuary and stone path.

DAY 24 | PROVIDENIYA & CROSSING THE INTERNATIONAL DATE LINE

Sited within a polar region still unknown to most people, **Provideniya** is a former Soviet military port with interesting history and culture. Guides will walk you through town to visit the local museum, home to an array of photographs, historical images and archaeological finds all collected by one passionate man. Next, enjoy tea and cookies before ending the day at a music and dance performance that blends indigenous and Russian cultural traditions — a true highlight of the visit. Borrow a book from the ship's extensive library in The Square or sit by the fireplace in the Expedition Lounge before going on deck during a transit of the Bering Strait to look for wildlife.

Head to the airport for your **included flight to Kangerlussuaq** in western Greenland. With the end of a long fjord on one side and the Greenland ice sheet on the other, this city is home to the country's largest commercial airport.

DAY 2 | SISIMIUT

The second-largest city in Greenland, **Sisimiut** is sustained by its fishing industry, with cod, shrimp, salmon and halibut being the predominant species. Make sure to visit the lovely museum, housed in historical buildings from the Danish colonization period, and explore its blue church, the best-preserved historic church in Greenland.

DAY 3 | ILULISSAT

Named for the Greenlandic word for iceberg, **Ilulissat** sits at the end of the Jacobshavn (Sermeq Kujalleq) Glacier fjord. Witness the incredible icebergs that have come 25 miles from the face of the glacier and out to sea. In the nearby Sermermiut Valley, the new Icefjord Centre blends the importance of the ice

with the human history of the region, which dates back more than 4,000 years.

DAY 4 | KARRAT FJORD

Located far north in western Greenland, the fishing village of **Karrat Fjord** was partially destroyed in 2017 after a massive landslide caused one of the tallest tsunamis ever recorded. You'll explore the region by Zodiac® and kayak, and you may even get the opportunity to land ashore and hike or walk the beautiful tundra landscape.

You'll also visit the community center to learn more about the residents and view local handicrafts.

DAY 7 | DUNDAS HARBOUR & CROKER BAY, DEVON ISLAND

On **Devon Island**, spend the morning at **Dundas Harbour**, a former post for the RCMP. See the remains of the old outpost, explore the hardy tundra flora, watch for wildlife and visit stone home sites that were long ago inhabited by the Thule people. In the afternoon, visit

Croker Bay to see the tidewater glacier at its head. This region is a breeding site for seabirds, and seals and walrus are often sighted here.

DAYS 8-17 | NORTHWEST PASSAGE

To sail through the famed **Northwest Passage** is to accomplish something many people spent centuries searching and striving for. Your activities here will be flexible, as the ice determines where and how we proceed, but this is a wonderland of rugged tundra, historical remains, modern Inuit communities and sea ice that is essential habitat for most local animals. Explore this area by Zodiac, kayak and submersible, using your ship as a home base to experience the wild passages of the North.

DAYS 18-21 | DAY AT SEA, BEAUFORT SEA

Upon exiting the narrow channels of the Northwest Passage, you'll sail the **Beaufort Sea**, across the top of Canada's Northwest Territories and Yukon. DAY 1 | USHUAIA

Transfer to the airport for your **included flight to Ushuaia**. Nestled in a bowl of snowcapped mountains on the banks of the Beagle Channel, Ushuaia greets you with a tapestry of colorful houses scattered against a rim of dramatic jagged peaks. It is often referred to as El Fin del Mundo, the "end of the world," and it is the de facto gateway to

Antarctica, where you will embark Seabourn Venture for your expedition to the Great White Continent.

DAYS 2-3 | DRAKE PASSAGE

Your Antarctic voyage truly begins with crossing the **Drake Passage**, infamous for strong currents and winds. In reality, the strait is often a tranquil "Drake Lake," barely disturbed by the ship's wake. Your Expedition Team will point out the noticeable change to Antarctic waters and identify ever-present petrels on the waves, albatrosses gliding just above the sea, and the exciting appearance of any whales or dolphins.

DAYS 4-8 | ANTARCTIC EXPERIENCE

You will never forget your first sighting of **Antarctica** and its islands. Regardless of weather conditions, you will find yourself spellbound by the vision of a completely unspoiled landscape of ice, rock and ink-blue sea. During your time on the Great White Continent, your Captain and Expedition Leader plan your itinerary, daily landings, scenic cruising and exploration operations to offer you the widest variety of experiences possible based on conditions and wildlife reports. The numbers and concentrations of wildlife thriving in

Antarctica must be seen to be believed. Your every waking hour is punctuated with visits to breeding colonies of crabeater, Weddell and leopard seals basking on ice or swimming; and watching various species of whales feeding, breaching or passing in view.

Petrels, skuas, gulls and other seabirds fill the skies. And inspiring, panoramic views of mountain ranges, glaciers and sculpted icebergs lend a dreamlike quality to every hour. Antarctica has been a source of inspiration for as long as humans have been aware of its existence. For these five days, you are privileged to experience this truly wild place at a level of luxury previously unimaginable.

DAYS 9-10 | DRAKE PASSAGE

Relax on another crossing of the **Drake Passage**. You may share tales of your personal explorations with shipmates, some of whom may become lifelong friends. Expedition Team members are once again available to point out birds and any marine life as you sail northward.

Monte Olivia towers above **Ushuaia**, Argentina, as you approach from the Beagle Channel. You have returned to one of the southernmost cities on Earth and re-entered civilization. Today you will

disembark and transfer to the airport for your **included return flight to Buenos Aires**. But for the rest of your life you may occasionally experience an emotional lift simply recalling that such a place as Antarctica exists.

HIGHLIGHT: CHINSTRAP PENGUINS. Feisty little chinstraps are named for the distinctive band running from a black "helmet" atop the head to under the neck. They stand about 30 inches (76 cm) high and make circular nests of (much disputed over) stones. They feed on krill, small fish and squid, often at great distances from shore. They are prey for leopard seals at sea, and their eggs and chicks are vulnerable to air attacks by skuas.

DAYS 3-7 | KURIL ISLANDS EXPERIENCE

Examples of locations we may visit during the Kuril Islands Experience include **Onkotan Island**, which is home to breathtaking Krenitsyn volcano, itself home to a flooded crater with a volcanic cone in the middle. Or on **Simushir Island**, get a glimpse into the past as you wander the remains of the secret World War II Soviet submarine base, a rusted relic frozen in time.

DAY 8 | DAY AT SEA, SEA OF OKHOTSK

Join the Expedition Team on deck to look for migratory sea birds and marine mammals in these nutrient-rich waters. Or, visit the Bow Lounge to explore the many tools on hand to enhance your understanding of the ship's navigation systems. Throughout the day, the

Expedition Team will also be in the Discovery Center, presenting on interesting and informative topics about our adventures to come.

DAY 9 | TYULENIY ISLAND

Tyuleniy is the Russian word for “seal,” which is fitting as this island in the Sea of Okhotsk is home to one of the largest northern fur seal and Steller sea lion rookeries in the world. Join your Expedition Team on an optional kayak excursion near the wild and fascinating island, watching the seals come and go from shore as seabirds fly overhead.

DAY 9 | KORSAKOV, RUSSIA

Come ashore at the port of **Korsakov** in the southern region of Sakhalin Island and drive inland to the beautiful city of Yuzhno-Sakhalinsk. This region reflects both Russian and Japanese influences. Visit the Japanese-style Sakhalin Regional Museum, the beautiful Russian Orthodox Cathedral, and the Square of Glory, a monument to fallen Russian soldiers in World War II.

DAYS 11-12 | DAYS AT SEA

Japan's northernmost isle, Hokkaido, comes into view as Seabourn Venture begins a two-day trek to Tokyo. Take advantage of presentations by the Expedition Team in the Discovery Center, in preparation for our arrival to Japan.

DAY 13 | TOKYO

One of the most densely populated cities in the world, **Tokyo** is well known for its Imperial Palace, historic Asakusa district, the shopping and entertainment hubs of Ginza and Roppongi, and the dazzling electronics district of Akihabara. Explore on your own or choose from optional excursions that include a tour of the city's iconic landmarks or a traditional Japanese cooking class.

DAY 14 | DAY AT SEA

Spend your final day at sea by celebrating your discoveries alongside newfound friends in The Restaurant. It's the perfect time to reflect on your unique experience on this exploration of the remotest corners of the world, made possible only by your expedition ship.

DAY 15 | KOBE

One of the first cities in Japan opened to trade with the West following the 1853 end of the policy of seclusion, **Kobe** has a cosmopolitan allure that includes a revered Chinatown, and in the Kitano neighborhood, a section of 19th-century Western-style buildings.

SEASONAL MIGRATION EXPEDITIONS

Uncover boundless beauty and wonder as you travel between continents and across oceans. From the Caribbean's colorful reefs, transit the Panama Canal then sail along South America's fascinating coastline. Call on cities built in the Spanish Colonial style and infused with history. Venture from New World to Old, as you chart a northeasterly course for sunny Las Palmas, captivating Lisbon and iconic London.

AUTUMN ATLANTIC MIGRATION

10 DAYS | ST. JOHN'S TO BARBADOS | OCT 2, 2022 | SEABOURN VENTURE

DAYS 0-1 | ST. JOHN'S & AT SEA

After exploring the colorful row houses in downtown **St. John's**, you begin your journey with the first of your exhilarating days at sea. Take this time to explore your beautiful ship and familiarize yourself with her spaces, each thoughtfully created to enhance your experience. Join the Expedition Team on deck and look for migratory sea birds and marine mammals in these nutrient-rich waters. Alternatively, visit the Bow Lounge to explore the many tools on hand to deepen your understanding of the ship's navigation systems.

DAY 2 | DAY AT SEA

Visit the Discovery Center to hear presentations from the Expedition Team about the animals that follow this same migration route from the food-rich waters of the north to the warmer habitats of the Caribbean. Or, hear about the early exploration and trade routes that crossed the waters of the Atlantic and resulted in the settling of the continents and islands to its west.

DAY 3 | DAY AT SEA

Enjoy a leisurely day at sea. Relax in The Square and borrow a book from the ship's extensive library or sit by the cozy fireplace in the Expedition Lounge. Visit the ship's bridge and meet the officers who pilot her around the world.

DAY 4 | DAY AT SEA

As the ship continues south and toward warmer waters, be on the lookout for changing wildlife. You never know what you'll find, but the more sets of eyes watching (even from the relaxing Infinity Pool on deck), the better chance you have of seeing something extraordinary.

DAY 5 | DAY AT SEA

Today the ship crosses the Tropic of Cancer at approximately 23°27' N of the equator. Now officially in the tropics,

there's a chance that clear nighttime skies will provide an unobstructed view of the autumn constellations. Join the Expedition Team on deck and try to spot Andromeda, Pegasus and Cassiopeia.

DAY 6 | SAN JUAN, PUERTO RICO

After the ship docks in **Puerto Rico's** thriving capital city, explore the charming old town and its stately Capitol building. Visit San Cristóbal Fortress, built from 1634 to 1765, and then drive to the El Yunque Rainforest, the only tropical rainforest in U.S. territory. This natural treasure exhibits jungle-like vegetation, amazing waterfalls and pre-Columbian petroglyphs.

DAY 7 | GREAT HARBOUR, JOST VAN DYKE, BVI

Named for one of the early settlers of the British Virgin Islands (who was also reported to be a pirate), **Jost Van Dyke** is a lovely example of a Caribbean escape. Join your Expedition Team for a chance to snorkel or scuba dive in these warm, clear waters in search of glasseye snappers, colorful squirrelfish and the elegant queen parrotfish. Alternatively, join an optional kayak trip along the shores of the bay or dive even deeper into the waters by submersible.

DAY 8 | CARAMBOLA BEACH, ST. KITTS & NEVIS

Known as the smallest sovereign state in the Western Hemisphere, **St. Kitts and Nevis** is a stunning archipelago. Visit the lush gardens at Romney Manor, including its 400-year-old saman tree,

which is more than 24 feet in circumference. Explore Caribelle Batik Studios before experiencing the St. Kitts Tropical Rainforest on an exhilarating nature walk. Alternatively, see the northeastern coastline of the island and learn about its sugarcane-producing history aboard the St. Kitts Railway. In the afternoon, join the Expedition Team for snorkeling and scuba diving or an optional kayak and submersible journey near beautiful **Carambola Beach**.

DAY 9 | FORT-DE-FRANCE, MARTINIQUE

Start your day with a walk through the charming and bustling streets of **Martinique's** capital, stopping to see Fort Saint-Louis and the Schoelcher Library as well as Pavillon Bougenot, a typical colonial home. In the afternoon, explore the vibrant undersea life of Martinique as you join the Expedition Team for snorkeling or scuba diving. Or, take an optional kayak tour around Fort-de-France Bay and enjoy views of the lush, mountainous island or dive the wreck of the *Nahoon* by submersible.

DAY 10 | BRIDGETOWN, BARBADOS

Bridgetown, a UNESCO World Heritage Site, is an elegant capital city that proudly displays its 400 years of British heritage. Originally settled by indigenous

peoples, Barbados became one of the largest and most successful sugarcane-producing areas in the world during the 17th century. Ripe for exploration, this historic town is the perfect place in which to end your journey.

INCLUSIVE EXPEDITION EXPERIENCES

Seabourn Venture and her sister ship, **Seabourn Pursuit**, will offer inclusive expedition experiences, such as hiking, snorkeling, scuba diving, and Zodiac cruising. In addition, the ships will offer a wide range of included shore excursions at nearly every destination the ships will visit. Guests will have ample opportunities to get the most from explorations of spectacular destinations on exhilarating sea-level adventures, from cruising picturesque fjords and waterways to trekking scenic islands, and viewing and learning about birds, seals, whales, and other wildlife. In addition to complimentary excursions, the ships will also offer optional shore excursions and Seabourn Expeditions with kayaking and two custom-built submersibles at select destinations.

ZODIACS & KAYAKS

Zodiac® boats are the workhorses of our expeditions. These amazing watercrafts revolutionized cruising to extraordinary destinations. They are our means for landing on trackless beaches, desert isles and far-flung icy shores where no docks or other facilities exist. They are magic carpets that carry us on scenic passages up towering fjords, among breaching whales and stately icebergs, and on forays into jungle-draped channels bright with nesting birds. They deliver us to untouched coral reefs, bobbing patiently as we snorkel or dive to our heart's content. Our fleet of 24 Zodiacs can all gather beside the water-level shell doors on either side of Seabourn Venture and Seabourn Pursuit, allowing us the option to take all guests on a complimentary Zodiac tour at once.

Double sea kayaks glide silently along shorelines, moving with silken grace as we approach animals at eye level, finding them curious and unafraid. Noiseless kayaks allow us to enjoy the snaps of brash ice in a glacier's meltwater, the musical sound of a waterfall and the ceaseless breath of breeze through old-growth forest. We can navigate tangled mangrove thickets teeming with life above and below the water, and slide over multicolored tropical coral gardens. Led by an expert member of our Expedition Team, these excursions offer an appealing option available for an additional charge.

SNORKEL & SCUBA GEAR

Snorkeling and scuba gear will open your eyes to the colorful underwater world in warm-water destinations. An array of masks, snorkels and fins assures everyone a good fit. Expedition Team members can help beginners get started and show you the best snorkeling spots. Scuba divers with an advanced or higher qualification will have the complimentary opportunity to go diving in select locations around the world. Seabourn Venture will provide tanks and weight belts. All dives will be led by a qualified divemaster.

CUSTOM-BUILT SUBMERSIBLES

Two six-person submersibles offer unique and unforgettable undersea experiences to Seabourn Venture and Seabourn Pursuit guests. Operated by experienced and licensed Expedition Team submersible pilots, these engineering marvels are capable of transporting guests beneath the surface, offering breathtaking views like surreal subsea realms beneath Antarctic waters, plunging underwater cliffs in fjords, or reef walls teeming with life in clear, tropical seas. These exceptionally rare experiences are available for an additional charge and are operated in select destinations.
