Explore the Extraordinary

A true Expedition is on the 'life list' of many travellers...

Now, with Seabourn, you may savour a new era of ultra-luxury expedition travel. Elevated to a higher level. Combining authentic, exhilarating adventures in remote destinations... with the uncompromising, sophisticated amenities of the world's finest resorts at sea.

We began offering expedition experiences during our first sailing to Antarctica in 2013 led by a highly qualified, world-class expedition team, and those itineraries have been offered almost every season since. This success opened the door for our 'Ventures by Seabourn' programme, featuring Zodiacs, kayaks, and guided hikes to enhance destinations such as Alaska, Australia & New Zealand, South America, Norway and Greenland.

Entering service in 2022 and 2023 respectively, Seabourn Venture and Seabourn Pursuit represent a new era in expedition cruising, designed for those whose appetite for unique experiences is matched by a taste for ultra-luxury amenities. With just 132 luxurious ocean-front suites onboard, guests will explore the world's most exquisite destinations in Seabourn's incomparable elegance and ease.

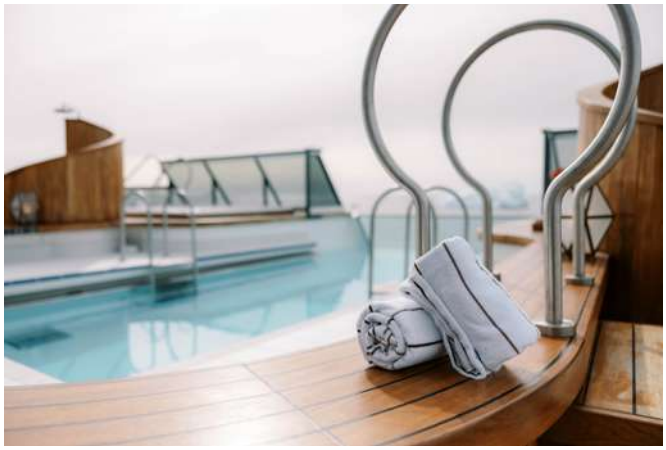

SEABOURN VENTURE

Designed and built for diverse environments to PC6 Polar Class standards, both ships feature a new innovative design, incorporating many features that have made Seabourn ships so successful. A complement of kayaks and 24 Zodiacs can accommodate all guests at once, allowing for a truly immersive experience… all alongside a crew that includes an outstanding and well-travelled expedition team comprised of highly regarded wilderness experts, scientists, historians and naturalists.

Seabourn Venture's 2026 - 2028 seasons include expeditions to the British Isles, the Arctic, Antarctica and the Northwest Passage - where you may cruise in Zodiacs under teeming bird cliffs, trek to earth-shaking waterfalls and kayak among stately icebergs. View whales, walrus and seals up close, glimpse polar bears in Greenland and cruise past vivid reef walls and towering ice cliffs.

Seabourn Pursuit winters in Antarctica, then voyages to the distant islands and atolls of the Pacific before summering in Australia's spectacular and rarely visited Kimberley region. Snorkel unspoilt tropical coral gardens glittering with iridescent fish and learn about some of the world's most remote communities on these warm-weather expeditions.

SOUTH AMERICA & ANTARCTICA 2026-2028

Words are inadequate to fully describe Antarctica, but you'll never forget how this pristine continent makes you feel. Catch your breath as a breaching whale casts up sheets of icy water. Reflect on nature's incredible power as you ride a Zodiac® in the shadow of monumental icebergs. Along the way, let magical moments, celebratory meals and luxurious surroundings fill you with delight.

Your skilled expedition leaders will curate complimentary Zodiac landings at remote islands and beaches, while on optional kayak excursions you may paddle among icebergs, leopard seals and regiments of penguins along untouched beaches. 'Seabourn Moments' include a 'Caviar on the Ice' party, digital photography workshops, open air bouillon and freshly baked treats on deck as you survey the incredible wildlife and scenery.

SOUTH GEORGIA

Feel overwhelmed when landing in South Georgia, a naturalist's paradise. The stunningly beautiful and rugged island is a wildlife sanctuary with over 450,000 pairs of King Penguins, over a million Macaroni Penguins, and many other bird species including albatrosses. Elephant and Fur seals populate most coastlines. History is present all around South Georgia, as seen in the remains of the whaling station which played an important role in early exploration and the island's history.

These amazing watercrafts provide our means for landing on trackless beaches, desert isles and far-flung icy shores where no docks or other facilities exist. They carry guests to towering fjords, among breaching whales and stately icebergs, into jungle-draped channels and untouched coral reefs. Our fleet of 24 Zodiacs can all gather beside the water-level shell doors on either side of the ships, enabling call guests to enjoy a complimentary Zodiac tour at once.

Snorkelling

An array of masks, snorkels and fins assures everyone a good fit. Expedition Team members can help beginners get started and show you the best snorkelling spots during warm weather voyages.

Double Sea kayaks

These silent craft allow guests to approach wildlife at eye level, to enjoy the snaps of brash ice in a glacier's meltwater, to navigate tangled mangrove thickets teeming with life and slide over multi-coloured tropical coral gardens. Led by an expert member of our Expedition Team, these excursions offer an appealing option available for an additional charge.
